OF INTEREST
To Merchants, Clerks, Teachers,
Students, and all Men.

A new and complete Set of Rules by which all the fundamental operations of Artithetic may be performed in an incredible there space of them. To become a master of them will rectaire not more than a couple hours study of any good sound mind; and the student will thereby be enabled to Add, Subtract, Multiply or Digide, in any sum of no matter how many figures, more accurately (indeed beyond the possibility of an error) and in less than one fourth of the line required in the old system.

These Kundamental Rules are followed by JUST PUBLISHED,

These Fundamental Rules are followed by an Examination into the PROPERTIES OF NUMBERS, which even further facilitates the r operations. There are also embraced in

Rules for the Calculation of Interest,

Rules for the Calculation of Interest, which will work out the interest at any rate upon any sum, with the utwest accuracy, and a simplicity and quickness fully equal to all the other operations by this, and vastly superior to all courses in the old plans.

Together, these form the most complete treatise on the Science of Numbers ever issued—and are interfeulably valuable to all men from their never-fulling accuracy, and to business men from the immense amount of time they rave from the most wearing details of business iffe. Particularly ought they to be in the hands of Merchants and Clerks, Teachers and Students, and Young Men generally.

The editor said, Doc. 22d:

Dr. Hoofand's Celebrated German Bitters for
the care of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly
one of the most popular medicines of the day.
These Bitters have been used by thousands, and
a friend at our clows says he has himself received an effected and newmanet, cure of Liver ved an effective and permanent cure of Liv Complaint from the use of this remedy. We are convinced that, in the use of these Bitter the patient constantly gains strength and vigsafety, under any circumstances. We are speaking from experience, and to the afflicted we ad

ing from experience, and to the amicted we advise their use.

* Scot!** Weekly,* one of the best Literary papers published, said, Aug. 25—

**Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Person of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems.*

More Evidence.

The 'Philadelphia Saturday Gazette,' the h family newspaper published in the United Stat The editor says of

Dr. Hoofland's German Bitters. 'It is seldom that we recommend what are termed Patent Medicines, to the confidence an patronage of our readers; and therefore whe we recommend Dr. Hoofland's German Bitters

we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty lized?

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the three last years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and

of Philadelphia than all other nostrums combi-ned, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia no one can doubt after using it as directed. It acts sy and liver; it is preferable to calomel in all bill-ous diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time.

This medicine has attained this high characte which is necessary for all medicines to attain t induce counterfeiters to put forth spurious art cles at the risk of the lives of those who are in

repared from RENNET, or the fourth STOM ACH OF THE OX, after directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa Tis. HOUGHTON, M. D., Philadeiphia, re-This is a truly wonderful remedy for Indiges-tion, Dyspepsia, Jaundice, Liver Complaint. Constipation and Debitity, curing after Nature's own method, by Nature's own agent, the Gastric Juice. In Italia teaspoonful of Persin, infused in water, will digest or dissolve Five Pounds of water, will digest or dissolve Five Pounds of

Gastric Juice.

ID* Half a teaspoonful of Persin, infused in water, will digest or dissolve Five Points of Roast Beef in about 2 hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent, of the Food, the Parifying, Preserving & Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ors, thus forming an Artificial Digestive Fluid precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Completeand Perfect Substitute for it. By the aid of this preparation the pains and evile of Indigestion and Dispepsic are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based in the highest degree curious and remarkable.

Baron Liebig in his celebrated work on Ani-

Scientific Evidence.

Baron Lichig in his celebrated work on Animal Chemistry says: 'An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the nuccous membrane of the stomach of the Calf, in. which various articles of food, as meat and eggs, will be softened, changed ald digested, justin the same manner, as they would be in the human stomach.'

Dr. Combe, in his valuable writings on the Physiology of Direction, observes that 'a dimi-

as they would be in the human stomach."

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyapepsia;' and he states that a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing close to fail, had recourse to the Gastric Juice obtained from the stomachs of living animals, which proved completely successful.

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty page to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, 'digestion occurred as perfectly in the artificial vs in the natural digestions.'

AS A DYSPEPSIA CURER,
